Executive Summary

INSIGHTS

This dashboard analyzes sales performance across two ecommerce platforms: TikTok Shop and Squarespace. Due to limited access to TikTok Shop sales metrics, most product-level and regional insights are derived from Squarespace. The dashboard highlights sales trends, product demand, and regional performance, giving the owner clear direction on where to focus sales efforts and refine marketing strategy.

KEY FINDINGS

- TikTok Shop generated 74% of business sales while Squarespace made up the remaining 26%.
- TikTok Shop's total net sales were \$968,587.16, and Squarespace net sales were \$339,287.77.
- The total sales overall for the company was \$1,307,874.93.
- The top two highest selling products are Anime Mystery Box at \$147,120.00 and Naruto Hoodie at \$134,805.00.
- TX, CA, and FL are the top 3 highest purchasing states and are responsible for approximately 18% more sales than all other 17 states that buy from Squarespace.

BUSINESS RECOMMENDATIONS

- Identify and increase marketing investment toward top-selling products across TikTok Shop and Squarespace.
- Review Squarespace operational and marketing performance to improve platform-specific sales.
- Analyze the remaining product catalog to determine opportunities for increasing sales.
- Prioritize marketing in Texas, California, and Florida with top-selling products.
- Explore additional product opportunities or in-person sales channels, including live events in high-performing states.

BUSINESS IMPACT

This analysis reveals where revenue is strongest, which products and regions drive the most value, and where marketing efforts should be focused. It gives the owner clear direction for strengthening platform performance, prioritizing high-impact products, and targeting key states to support sustainable growth.
